2nd BHDT Service Urea Conference

Dear Madam/Sir,

We are pleased to invite you to our 2nd BHDT Service Urea Conference on 3rd and 4th of May 2012.

The Conference will cover several interesting topics such as:

- ✓ Innovations and new developments in HP piping components
- ✓ Materials of construction in urea plants: Complete Overview and Future Trends
- ✓ Welding techniques: Theory and Practice
- ✓ Features of BHDT HP Valves
- ✓ How to assure / increase the Safety and Reliability of HP valves and fittings
Discussion of several Troubleshoot Cases
- ✓ Features of Safurex[®]
- ✓ BHDT Installation Services
- ✓ Tour to local steel works
- ✓ Workshop tour at BHDT with a focus on high pressure valve manufacturing and welding techniques

The Conference will be held at our main Workshops and Engineering facilities which are located in Kapfenberg / Austria.

This Symposium will be an excellent opportunity for project, process, operational, mechanical, maintenance, inspection and reliability engineers of any ammonia and urea plant to learn, discuss and see the latest innovations and developments in High Pressure Piping systems. The shop tours will feature live demonstrations and will give plenty of opportunities to discuss experiences with colleagues and experts. All our efforts shall assure you a valuable seminar with a high added value.

Please find enclosed the detailed Program and Registration Form.

Looking forward to welcome you in May

Best Regards

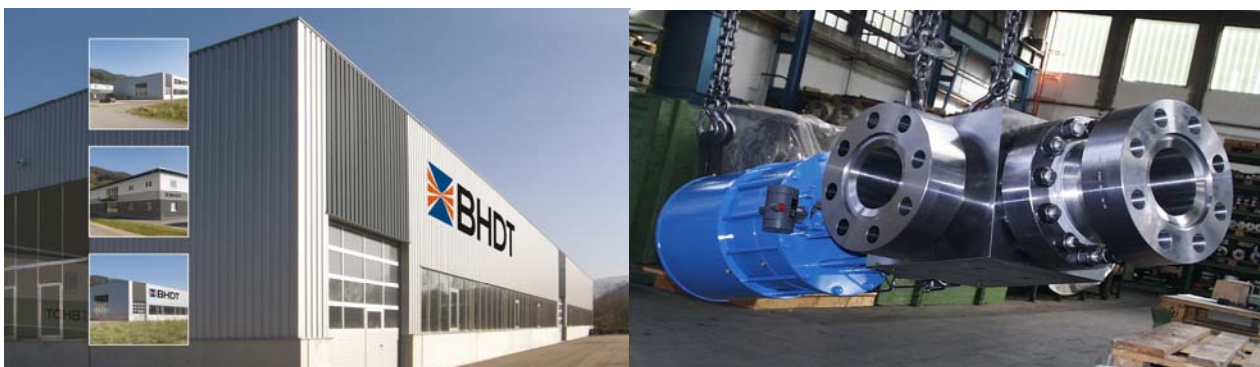

BHDT Service GmbH
